WINTERFEST

On January 31st, the annual winter festival was held after being rescheduled!

Students and parents gathered for a day of festivities, with live performances, student-led stalls, food stalls, and carnival games.

The Student Council ran a 'Sign-Off Booth', a photo booth that allowed everyone to take home cherished memories and snaps from the event around family and friends. All proceeds for the event were donated to REACH, a local NGO in Hong Kong focused on bridging the English gap for underserved kindergarteners.

The festival highlighted the very soul and spirit of our community.

Student led stalls

Bracelet making

Student led stalls

Face painting

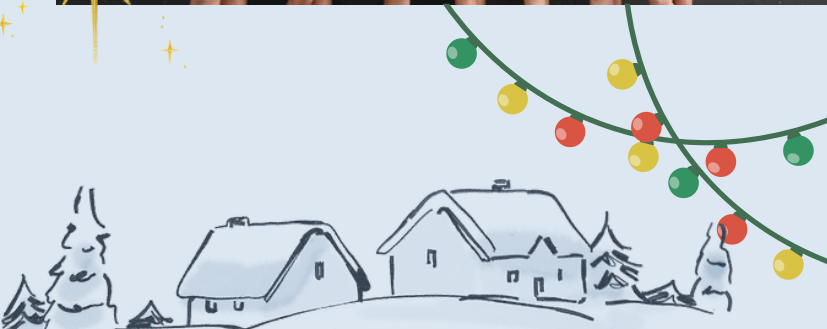

An immense amount of effort was put into planning this event; months of planning, liaising and commitment led to the culmination of this event. We plan to continue to develop and improve this festival and hope to see you all again next year!

SPIRIT WEEK

Spirit Week has made its return this year! Spirit Week hopes to bring students together and furthers school belonging. We hope you enjoyed taking photos and dressing up for these themes! The themes this year included: Matching Monday, TV Show Tuesday, Wake Up Wednesday, Throwback Thursday, and Fancy Friday.

ALUMNI CAREERS

EVENING

On January 30th, students had the opportunity to meet a wide range of alumni from different fields and industries at the Alumni Careers Evening, an annual event hosted by Mr. Yu. The evening consisted of alumni speeches, industry breakout Q&A sessions, and group interviews, providing students with numerous opportunities to speak to alumni from diverse fields. We were very grateful to have nearly 15 alumni attend this event, covering fields such as medicine, business, architecture, law, finance, tourism & hospitality, STEM, and more. Our students and alumni shared meaningful discussions that included valuable insights and advice. This event allowed students to learn more about the different pathways open to them, helping them navigate their journey towards their future career plans and aspirations.

However, this year's Alumni Careers Evening could not have been so successful without Mr. Yu, who dedicated long hours and effort into organising this event, as well as all of our alumni, who offered their time and invaluable expertise. This event has once again succeeded in inspiring another generation of brilliant students and the next line of future entrepreneurs, doctors, lawyers, scientists, and more.

ESF MEETING

@STC

THEME: SUSTAINABILITY

On the 26th of February, Sha Tin College hosted Head Students from across the Foundation. The ESF Student Council meeting centered around the theme of sustainability and how schools can innovate and tackle the issue of waste. Representatives from all seven ESF secondary schools attended the meeting and reported on their respective schools' progress. The students were also joined by Mr. John Turner and Mr. Joshua Blue, both Heads of Education at ESF.

Held in the Senior School Centre, members of the council engaged in fruitful discussions, gaining insight from each other. The students shared updates and touched on topics

spanning from mental health to DEI. We were honoured to have Mr. Anthony Dixon, CEO of The Alliance of Sustainable Schools (TASS). He highlighted the disconnection between parties related to sustainability in schools, and the importance of understanding nuances and factors that may be overlooked. Moreover, the student representatives were given a tour of Sha Tin College's campus and facilities. This student-led framework acts as an important bridge between the schools, amplifying the voices of all students.

VALENTINE'S DAY

Handwritten note

Hand delivered roses

On February 13th, students had the opportunity to send flowers to someone special, along with a custom note!
The student council went around the school to hand out each rose, to display our appreciation to students and even teachers!

CLOSING REMARKS

As this marks the end of the 2026 Student Council Newsletter, we are happy to announce new beginnings with our apprentice cabinet gearing up, bringing fresh ideas to the school.

We hope you made the most of this term, and to the Year 11s and 13s going on study leave, all the best for your exams!

To everyone else, we hope you have a happy holiday, and see you back at school in term 3. Thank you for reading!
