

Student AI Use Declaration

At Sha Tin College, I am encouraged to explore new technologies, such as generative AI, and learn how to use them effectively. AI can be a helpful tool in my learning, but it's important that I use it responsibly and honestly. This guide explains how I can use AI in different ways while following the rules of good academic conduct.

Icons designed by Beatriz Calvo Prieto, Hayman Lau (Class of 2027) and Jasmine Tin (Class of 2028)

I've not used AI	I've used AI to help me understand	I've used AI to help me come up with ideas	I've used AI to help me improve my work	I've used AI to help create parts of my work
 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>
If I have checked this box, there is no need for me to fill anything else in.	If I've checked this box, I need to fill in the 'I've used AI to help me understand' section below.	If I've checked this box, I need to fill in the 'I've used AI to help me come up with ideas' section below.	If I've checked this box, I need to fill in the 'I've used AI to help me improve my work' section below.	If I've checked this box, I need to fill in the 'I've used AI to help create parts of my work' section below.

I've used AI to help me understand

I didn't understand these points...	
I used this AI app / these AI apps to help me understand ...	
I asked the app(s) ...	

I've used AI to help me come up with ideas

I used this AI app / these AI apps to help me come up with ideas ...	
I asked it / they to ...	
The app(s) gave me the following ideas ...	

I've used AI to help me improve my work

Here is the original version of my work ...	
I used this AI app / these AI apps to help me improve it ...	
I asked the app(s) to improve ...	

I've used AI to help create parts of my work

I used AI to create these parts of my work ...	
I used the app(s) to create those parts of my work ...
